

# Porcelains Unlimited

MOSAIC CATALOG

Porcelains Unlimited offers a vast array of customizations and personalization of custom tile mosaics.

Ideal for both indoor & outdoor spaces, architectural accents for private homes, and as enhancements to parks, swimming pools, community buildings, monuments, and churches.

In our catalog you'll find several ideas of what's possible, but it's really limited only by imagination.

Our advanced proprietary system allow us to combine the tradition of old with the technology of today to achieve exceptional quality and reproduce a picture of any image you're interested in, turning your vision into a reality.

Our products are printed on 1st choice porcelain stoneware tiles, handcrafted in Italy.

It's a special kind of compact & durable material, characterized by porosity which does not allow the absorption of water.

The tiles are composed of raw materials, such as minerals, kaolin, feldspar and clay. Our manufacturing process takes place without any added adhesives or resins.

It is pressed at 1100 lb/cm<sup>2</sup> (500 kg/cm<sup>2</sup>) and fired in the 1st firing at a temperature of 2280-2370 °F (1250/1300 °C). The 2nd firing with chosen image applied, is fired at a temperature of 1650 °F (900 °C).

This manufacturing process makes our tiles immune to most common acids such as lemon juice, vinegar & hydrogen chloride.

This makes maintenance easy with the use of strong cleaners and disinfectants, and has excellent abrasion resistance.

The colors will remain stable and do not change when exposed to sun, frost, or smog.

Assembly is a breeze with the use of normal glue for external paving.

The characteristics and qualities mentioned above make our products long lasting and guaranteed to last for generations.
